FROM WHITESIDE'S ITALY IN THE 19 THEENTURY THE POPE IN CONCLAVE .- RECEPTION OF

A NEW CARDINAL. It is very amusing, because novel to stand near the door of the grand chapel, and look at the cardinals as they enter one by one at short intervals; accompanied by a chaplain in full black clerical custom, followed by an attendant in russet brown, with a bag, and their footmen in bright liveries, whose coats hang loosely upon their shoulders, as if made for their grandtathers. The party draw up in the outer hall to settle the tail of his eminence; the bag is opened, robe taken out and adjusted. and let down to sweep the ground in a long, graceful train. The dress of a cardinal on such occasions is not only rich and splendid, but peculiarly elegant and becoming. The colors on certain festivals vary : red, purple, white. Sometimes during a religious ceremony the tippet is removed

and laid aside; why, I never could find out. This I would regret, as it looks beautiful enough, yet I am consoled by observing that what is underneath is even finer still. But I must enter to see what a cardinal does when he struts in so proudly, like a peacock with his gaudy tail. He sweeps along between files of obsequious Swiss; the noble guard receive him as a prince of the blood. The moment his eminence crosses the threshold of the sacred enclosure he drops gently on his knees: while engaged in pious meditations, the fine gentlemen of the palace (who wait on the Pope in black court-dress, lace ruffles and sword), not to lose time, settle the dress about the shoulders of the cardinal and pull out the tail properly. When his eminence rises all is right, and he may move on, which he does with solemn dignity; not, however, to his seat, but to salute his holiness the Pope, who sits apart in solitary grandeur under a canopy, with two priests at each side to fold his robe, and take off his mitre and put it on again, and hold the book, with a pair of huge wax candles lighted in broad day, to enable his holiness at intervals of the service to read. One might suspect the Pope had neither arms nor hands, for he never touches anything, except when a cardinal kneels before him, when he graciously extends his robe, on which a cross is embroidered, to the devout man to kiss, which when the cardinal (who never kisses his slipper) has done, he rises, make a profound obesiance, and then grave-ly moves to his place on one of the cushioned benches which surround the enclosure. Here a difficulty would arise as to which looked so beautiful as he strutted along the floor. This is guarded against by a prudent arrangement. There is a lower bench, on which is seated the attendant in russet who carries his master's bag; this practitioner rises, adjusts the cardinal's robe, enables him conveniently to sit down, and then seats himself, ready for any emergency, at the feet of his eminence. Occasionally the members of the Sacred College, during a religious ceremony, rise and descend to the floor; the men in russet are on the alert, watch the tails and untwint them, so that not the least discomposure happens. The new cardinal was now introduced by two of his brethren. How fine he was! His crimson stockings, and scarlet robes, and shining buckles, and diamond ring delighted me exceedingly. He went through all the ceremonies cleverly, and grew quickly into a pillar of the church. Sometimes the whole company of cardinals stood up, and with purch for what should be done with his long tail, netimes the whole company of cardinals stood up and with much for-

is as great a personage as they are.

This is done by each laying both arms on

I became acquainted with a young, handsome, fushionable Count, who mixed largely in English society in Rome. During an evening's conversation he remarked, he had never beheld the sea and had a great desire to do so. I observed that was very easy, the sea was but a few miles distant, and if he preferred a sea-port, Civita Vecchia was not very far off. The Count laughed. "I made an effort to accomplish it, but failed," he then said. "You English who travel over the world do not know our system. I applied lately for a passport to visit the coast: the officials inquired my age and with whom I lived; I said with my mother. A certificate from my mother was demanded, verifying the truth of my stntement. I brought it; the passport was still refused. I was asked who was my parish priest; having answered, a certificate from him was required, as to the propriety of my leaving Rome. I got the priest's certificate; they then told me in the office I was very persevering, that really they saw no necessity for my roaming about the country just then, and that it was better for me to remain at home with my mother." The only palliation for the refusal of a passport to this young man for his trip, may be found in the fact that the insurrection had occurred at Rimini a few months before, and as the youth had an

PANACBA THE ONLY RADICAL CURE FOR CONSUMPTION!!

Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pestules on the face, Blotches, Blies, Chronic Sore Eyes, Ring Worm or Tetter, Senid Head, Enlargement and Pain of the Boues and joints, Stubborn Uteers, Syphilitic Symptoms, Sciatica or Lumbago, discase arising from an injudicious use of Mercury, Dropsy, Exposure or Imprudence in life; also, Chronic Constitutional Discorders.

In this medicine several innocent but very potent articles of the vegetable kingdom are united, forming a compound entirely different in its character and properties from any other preparation, and unrivalled in its operation on the system when laboring under disease. It should be in the hands of every person, who, by business, or general course of life, is professored to the very many alliments that render his a curse, instead of a blessing, and so often result in death.

POR SCROFULA.

QIT. Drake's Panacen is recommended as a certain remedy. Not one instance of its failure has ever occurred when freely used! It cures the disease and at the same time imparts vigor to the whole system. Scrofulous persons can never pay too much attention to the state of their blood. Its purification should be their first aim; for perseverance will accomplish a cure of EVEN MERICHARY disease.

FOR ERUPTIONS OF THE SKIN. Scurvy, Scorbutic Affections, Tumors, White Swelling Erysipchis, Ulcers, Cancers, Running Sores, Scales an Biles, Dr. Druke's Panacea: cannot be too highly extolled it scarches out the very root of the disease, and permanen

RHUEMATISM.

Dr. Drake's Panneca is used with the greatest success in Rheumatic Complaints, especially such as chronic. It cures by driving out all impurities and foul humours which have accommissed in the system, which are the cause of Rheu-matism, Gout, and Swellings of the joints. Other remedies sametimes give temporary relief; this entirely eradicates the disease from the system, even when the limbs and bones are dreadfully swollen.

CONSUMPTION.

CONSUMPTION.

CONSUMPTION CAN BE CHEEN.—Coughs, Catarth, Bronchitts, Spitting of Blood, Asthma, Difficult or profuse Expectoration, Heefie Flush, Night Sweats, Pain in the side etc. have been cured, and can be with as much certainty as may other disease. A specific has long been sought for, but in vain until the discovery of Dr. Drake's Panacea. It is mild and safe but certain and effectious in its operation, and cannot possibly injure the most delicate constitution. We would connectly recommend these afficied to give it a trial—and we believe they will not have occasion to regret it. The system is cleanaed and strengthened, the deers on the lungs are heated, and the putients gradually regain their usual health and strength. Read the following:

TESTIMONY.

To use the language of mother, "Dr. Drake's Panacea is always salutary in its effects—never injurious. It is not as Opiate—it is not and Expectorant. TO THE LADIES.

Ladies of pale complexition and exassimptive habits, and such as are debiliated by those obstructions which females are liable to, are restored by the use of a hottle or two, to bleam vigor. It is by far the best remedy ever discovered for weakly children, and such as have bad humors; being pleasant, they take it. It immediately restores the appetite, strength and color.

Nothing can be more surprising than its invigorating effects on the human frame. Persons, all weakness and has sinde before taking it, at once become robust and full of energy under its influence. AND A VARIETY OF OTHER DISEASES ARISING FROM IMPURITIES OF THE BLOOD, AND OB-STRUCTIONS IN THE ORGANS OF DI-GESTION.

Experience has proved that nearly every Dis-ease originates from Impurities of the Blood or derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the Blood to its natural state.

The aversion to taking medicine is most effectually removed by CLICKNER'S VEGETABLE PUR-GATIVE PILLS, being completely enveloped with a coating of pure white Sugar, (which is as distinct from the internal ingredients as a nut shell from the kernel) AND HAVE NO TASTE OF MEDICINE,

But are as easily swallowed as bits of candy. Moreover they neither nauseate or gripe in the slightest degree, but operate equally on all the diseased parts of the system, instead of confining themselves to, and racking any particular region. Thus, if the Liver be affected, one ingredient will operate on that particular organ, and, by cleansing it of an Excess of Bile restore it to its natural state. Another will operate on the Blood, and remove all impurities in its circulation; while a third will effectually expel whatever impurities may have been discharged into the stomach, and hence they STRIKE AT THE ROOT OF DISEASE, remove all Impure Humors from the body; open the pores externally and internally; separate all foreign and obtoxious particles from the chyle, so that the blood may be thoroughly pure—thus securing a free and healthy action to the Heart, Lungs and Liver; and thereby they RESTORE HEALTH E-VEN WHEN ALL OTHER MEANS HAVE FAILED.

The entire truth of the above can be ascertained by the trial of a single box; and their virtues are so positive and certain in restoring Health, that the proprietor binds himself to return the money paid for them in all cases where they do not give universal satis action.

Retail Price, 25 cts. per Box. \*.\* Principal office No. 66 Vesey st., N. York. Sold by JOHN YOUNG, Sanbury, M. A. McCAY, Northumberland.

Philadelphia, 10 mo., 13th, 1846, To T. B. Peterson,—Having been requested to give my opinion on the merits of M'ALLIS-TER'S SALVE, I am willing to enumerate some of the benefits which I have experienced in the use

of the article. In the spring of 1845, I had an attack of Erysinelas in my face which became very painful, and extended into one of my eyes, being attended with fever, my distress was great and I began to be fear-

ful of losing my eye.

Although not much of a believer in what is commonly called quack medicines, I purchased a box and made an application to my face. To my surprise the pain soon abated, and in a week's time it was entirely cured, and I firmly believe that it was the salve, under Providence that cured me.

From that time to the present, I have used the article as occasion required, and in every case where I have used it, I have found a decided benefit.

At one time, on going to bed at night, my throat was so sore that I swallowed with difficulty, but by an application of the salve I was relieved before noming.

I have used it in case of burns, bruises, sprains,

and flesh cuts, all with the happiest effects, and one case of poisoning by a wild vine in the woods, has been dried up and cured by a few applications. From my own experience, I would strongly recommend it to all, as a cheap, convenient, family I have become so partial to it, that I expect to

keep it constantly in my family.

NOTES AT PAR.

DR. SWEETSER'S ABBARAGE HIS Medicine is warranted, on eath, not to contain a particle of Calomel, Corrosive Sub-imate, Arsenic, Chloride of Gold, or any delete-

rous minerals.

The principle upon which this Medicine acts, is by assisting and harmonising with nature; it drives out all foul acrimonious humors from the blood and body, and by assimilating with and atrengthening the gastric juice of the stomach, it sesists digestion; in short there is not a vein, artery, muscle or nerve in the human body, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the hones and joints.

FOR ERUPTIONS OF THE SKIN, Scurvy, Scorbutic Affections, Tumors, Scrofuls or Kings' Evit, White Swellings, Erystpelas, Ulcers. Cancers, Running Sores, Scabs and Biles, time and a determined perseverance in D. SWEET-SER'S PANACEA, will effect a cure.

FOR INDIGESTION. Rejection of food, Nauses, Vomitings, Nervous affections, Billious complaints, Head ache, Paleness, or Female Irregularities, Dr. SWEETSER'S PA-NACEA will soon effect a cure; but if obstinate or attended with griping, flying pains, the dose should be increased, and the cure will soon be effected. Let not the patients frighten themselve with the idea that they are too weak to take much medicine; but bear in mind that this mildly operating medicine put not weakness into the frame, bu most certainly draws weakness out, leaves strength in its place, and by giving composed sleep at night and an appetite to relish any food, re-animates the whole frame with vigorous action, clearing the mind and improving the sight.

SCROFULA AND GLANDULAR AFFEC-

TIONS. Scrofula is said to be heriditary, the infant receiving from its parents the seeds of this disease, which increases with its years, if neglected and not submitted to frequent purification with Dr. SWEETSER'S PANACEA. The glands are placed in the corners of the body, and out of the way of direct communication; their real use is a subject on which much difference of opinion prevails; suffices us to know that when in a diseased state. they are capable of being purified and cleansed by a long course of Dr. SWEETSER'S PANA-UEA, which restores them to sound and proper action. Scrofulous persons can never pay too much attention to their blood, its purification should be their first thought, for after a long course of perseverance, they will ever cure hereditary disease.

In cases of JAUNDICE, ASTHMA, LIVER COMPLAINTS, TIC DOLOREUX, RHEU MATISM OR RHEUMATIC GOUT, Dr. SWEETSER'S PANACEA cannot be too high ly extolled; it searches out the very root of the disease, and by removing it from the Blood makes in fact, every disease caused by the sharp, biting

DISEASES OF THE LUNGS-CONSUMPTION. performing a cure.

This is a very prevalent and fatal disease; it re-This is a very prevalent and fatal disease; it re-sults mostly from neglected coughs, colds and bronchitis, also from improper treatment in many other cases, such as measles, fevers, inflammations and small pox, and a host of other badly treated diseases; where the cause, instead of having been thoroughly removed from the blood and body, have only been pulliated or removed from one part to break out in another. By divesting your bodies of all foul hu-mors, through the medium of Dr. SWEETSER'S PANACEA, the cure is at once rendered certain and permanent. Recoilect, while there is acrimo nious humors floating in the circulation, it is as apt to settle on the lungs as any other part of the body ;

this is the reason that consumption is so prevalent BILES, SORES AND ULCERS, Which you see on the exterior, come from and have their source in, the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do, and pro-duce most violent inflammatory disorders. The humor which occasions these sores is of a highly acrimonions burning nature. We know it from the pain it gives in forming, and afterwards its rapidly ulcerating and corroding the flesh and skin of the part where it breaks out. This shows the necessity of frequently purifying the blood with Dr. SWEETSER'S PANACEA, and keeping such malignant humors in subjection. Should you have a bile or ulcer, be thankful that nature has taken trouble to warn you of the danger your life and body is in, for it is a warning that the blood is foul. Had this same actimony selected the lungs instead of the surface of your body for its seat, consump-tion of the lungs would have been the consequence. Delay not then, to purify and cleanse with Dr. Sweetser's Panacea.

Spinal affections, enlargement of the bones and joints, white swellings, hip joint complaint, ruptutes, falling of the bowels and wome disease, will find a speedy oure in Dr. SWEETSEK'S PA-NACEA. Where the disease has been of long standing, the time required to make a cure will be longer; but the patient may rest assured that a determined perseverance will effect it.

BRONCHITIS, ASTHMA AND DISEASE OF THE WINDPIPE.

These diseases proceed from the seriosity or corrupt humors of the blood, having settled itself on

the throat and lungs, and stopped them up, so that they cannot draw sufficient air in for respiration. Dr. SWEETSER'S PANACEA will give immediate relief, and to make the cure perfect and cer tain, it should be continued some time after, to free the system of all bad humors.

JOHN SPEECE.

LEWIS LENHART. is the cause of rheumatism, gout and swellings of the joints. The deleterous effects of calomel and the joints. The deleterous effects of calomel and other mineral poisons, readily yield to its sovereign influence; indeed, when its valuable properties become fully known, the use of all mineral poison will be consigned to 'the tomb of all the Capulets,' and only be thought of as a by-gone custom of the darker ages. Dr. Sweetser's Panacea is also a sure cure for dyspepsia, piles, costiveness, vertigo, head-sche, pain in the breast and liver complaint.

FEVER AND AGUE. Fever is always caused by a disorderly move-ment of the blood, struggling to fice itself of some-thing that encumbers it; in fact, every kind of fe-ver is nothing more than a struggle between the blood and corrupt humors, and as soon as the cor-

upt humors are expelled, you have no more fever. When a patient with fever submits to be bled, or have his blood poisoned with mercury, it weakens his frame to such a degree, that if he survives the process, it alw ays leaves him subject to distressing chills, when 9 times out of 10 he resorts to ague pills powders, or tonic mixtures; this is going from bad to worse, as these vegetable pills, powders, &c, are nothing but mercury and quinine in disgulse, which may for a time drive the disease so far into the body as not to be perceptible, but very soon is will break out sgain with fearful violence. To cure sgue and fever, the cause of the disease must be re-moved out of the blood and body, which can be ef-fectually done by using Dr. SWEETSER'S PA-NACEA, which purifies, cleanses and strengthens, It contains nothing that can possibly injure, and its use is always a safeguard against chills and fevers.

In ALL CASES OF PILES, Dr. SWEETSER'S PANACEA will effect a very speedy cure. It removes from the blood, stomach and bowels, all those foul scrid burning humors, which are the cause of Piles and Costiveness, and by strengthening the digestive organs, improves every part of the

A few doses of Dr. SWEETSER'S PANACEA will convince the sufferer that relief is attained.

GREAT MEDICINE FOR CHILDREN. Parents will find the PANACEA a valuable medicine for their children, keeping their bodies in a healthy condition, thereby assisting their growth; children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and the entire system in a strengthened state; it drives out all kinds of weakness from the body and leaves

all healthy within.

MARRIED LADIES
